MEDTRONIC AT-A-GLANCE

THE WORLD’S LEADING MEDICAL TECHNOLOGY COMPANY
WITH A MISSION TO ALLEVIATE PAIN, RESTORE HEALTH AND EXTEND LIFE

OUR MISSION

WRITTEN IN 1960, OUR MISSION DRIVES EVERYTHING WE DO.

- 1 To contribute to human welfare by application of biomedical engineering in the research, design, manufacture, and sale of instruments or appliances that **alleviate pain, restore health, and extend life.**
- 2 To direct our growth in the areas of biomedical engineering.
- 3 To strive without reserve for the greatest possible reliability and quality in our products.
- 4 To make a fair profit.
- 5 To recognize the personal worth of all employees.
- 6 To maintain good citizenship.

OUR PIPELINE

OUR THERAPIES AND SOLUTIONS IMPROVE LIVES

More than 70 conditions in the human body are treated with our therapies, enabling us to address chronic conditions and provide healthcare solutions

// “At Medtronic, we believe diversity drives better business results. This includes creating a diverse supply chain – one that delivers exceptional quality, while also benefiting the patients and physicians we serve and the broader communities in which we operate. Further, we gain a competitive advantage through the product innovation and flexibility delivered by a diverse supplier base.

— Medtronic Chief Executive Officer, Geoff  Martha

Medtronic

FOUNDED ON INNOVATION AND COLLABORATION

LEFT: Surgeon C. Walton Lillehei in 1961, with a young patient wearing a Medtronic battery-operated pacemaker.

RIGHT: Our late co-founder and lifelong innovator, Earl Bakken, holding the world's smallest pacemaker today next to the world's first pacemaker (1957), both developed by Medtronic.

Since the late 1940s, we have been working with others to alleviate pain, restore health, and extend life.

LONG HISTORY OF SUPPORTING AND ADVANCING DIVERSITY & INCLUSION
